EXPERIMENT – 2

Objective

To design a simple interactive prototype of a Bus Ticket Booking System using Figma.

Step 1: Login to Figma

1. Open browser → go to **figma.com**
2. Click **Login / Sign Up**
3. Login using Google or email.

Step 2: Create a New Design File

1. Click **New Design File**
2. Rename file as:
   Bus Ticket Booking Prototype

Step 3: Create Frame (Mobile Screen)

1. Click **Frame Tool (F)**
2. Select device: **Android / iPhone (375 × 812)**
3. This represents the mobile app screen.

Step 4: Design Home Screen

Add these UI elements:

Header

- Text: **Bus Booking App**

Input Fields

- From City
- To City
- Travel Date

Button

- **Search Buses**

Arrange neatly using rectangles and text.

Step 5: Design Bus List Screen

1. Duplicate first frame (Ctrl + D)
2. Add:
   - Bus Name
   - Time
   - Price
   - **Book Now** button

   Create 2–3 sample bus listings.

Step 6: Design Seat Selection Screen

Duplicate frame again:

Add:

- Seat grid (rectangles as seats)
- Selected seat in different color
- **Proceed to Payment** button

Step 7: Design Payment Screen

Duplicate frame:

Add:

- Ticket summary
- Total price
- Payment method dropdown
- **Pay Now** button

Step 8: Create Confirmation Screen

Duplicate frame:

Add:

- Booking Confirmed
- Ticket number

- Travel details
- **Download Ticket** button

Step 9: Create Prototype Links

1. Click **Prototype tab**
2. Connect:

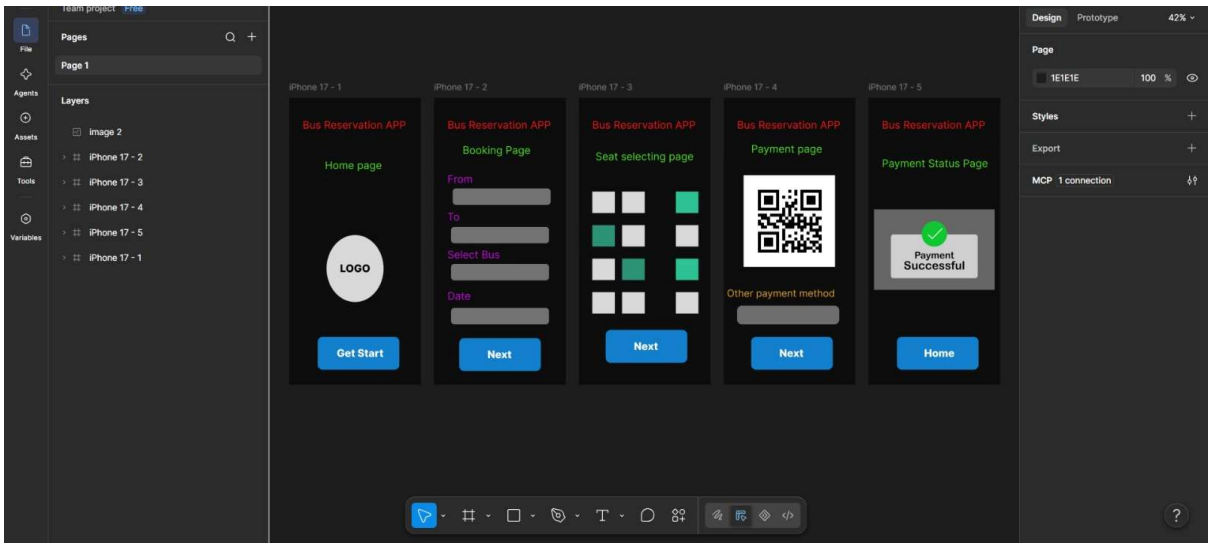

- Search Buses → Bus List Screen
- Book Now → Seat Selection
- Proceed → Payment
- Pay Now → Confirmation

Step 10: Preview Prototype

1. Click **Play ▶ icon**
2. Test full booking flow.

Step 11: Save and Share

1. Click **Share**
2. Set permission to *Anyone with link – View*
3. Copy link.

Result

Thus, a simple prototype of a Bus Ticket Booking System was successfully designed using Figma.
